**A.** Route2Jobs provides rigorous and intense coaching to candidates for Government entrance exams. Through regular online lectures and online tests, the students are both taught and trained to succeed in all the sections of the exam. These tests include mock tests, subject tests and topic tests pertaining to all the sections of the exam.

As each of the sections in the exam carries separate marks, and the system requires that the candidate must clear each section individually, the best way to ensure a balanced preparation is through an online test.

Route2Jobs ensures better success than any other test-prep classes because:
